GREEN CANDLE BREAKOUT

How to Use This Pack

Choose the proposal that best matches the organisation you are approaching.

Purpose

This pack provides ready-to-customise collaboration frameworks. Each individual proposal is also supplied as an editable DOCX and a sharing-ready PDF so the organisation name, date, programme focus and scope can be tailored before sending.

01 Schools & Colleges

Practical awareness programmes for informed, financially disciplined and entrepreneurial learners.

02 Universities & Training Institutes

Applied learning, orientation and capacity-building for youth, faculty and professional learners.

03 NGOs & Community Platforms

Accessible awareness and capacity-building for communities, youth groups and grassroots programmes.

04 Corporate CSR & Awareness Programmes

Responsible, structured learning interventions for employees, communities and CSR beneficiaries.

05 Entrepreneurship & MSME Ecosystems

Founder-oriented learning for idea validation, enterprise basics, financial discipline and responsible growth.

Recommended sending practice

Send only the relevant proposal to the prospective partner, together with the Institutional Profile or Programme Catalogue when useful. Keep pricing out of the first document unless the scope is already clear; finalise commercial terms after audience, duration, format and deliverables are confirmed.

GREEN CANDLE BREAKOUT

01 Schools & Colleges

Practical awareness programmes for informed, financially disciplined and entrepreneurial learners.

Collaboration rationale

The proposed collaboration brings together practical legal literacy, financial literacy and entrepreneurship education in a learner-friendly format. Sessions can support awareness, decision-making, responsible behaviour, money understanding and enterprise thinking without turning the programme into a textbook-heavy lecture.

Suggested programmes

- Student Legal Literacy & Cyber Awareness
- Financial Literacy & Money Habits
- Entrepreneurship & Problem-Solving Workshop

Additional options

- Investor Awareness & Risk Education (age-appropriate)
- Career-linked Enterprise Orientation
- Theme-based awareness days / enrichment sessions

Expected outcomes

- Improved awareness of rights, responsibilities and safe decision-making
- Stronger understanding of savings, budgeting, risk and financial discipline
- Greater confidence in problem-solving and entrepreneurship thinking
- Practical takeaways that can be discussed beyond the session
- A structured enrichment programme that can be repeated or expanded

Next step

A short scoping discussion can identify the learner group, preferred format, duration, thematic priority and expected outcomes. A customised programme note can then be finalised for the institution.

GREEN CANDLE BREAKOUT

02 Universities & Training Institutes

Applied learning, orientation and capacity-building for youth, faculty and professional learners.

Collaboration rationale

University and training audiences benefit from practical interdisciplinary learning that connects law, money, markets, enterprise and real-world decision-making. The collaboration can be positioned as an orientation, masterclass, employability-linked enrichment programme or structured learning series.

Suggested programmes

- Legal & Civic Literacy for Young Adults
- Financial Literacy & Personal Money Management
- Investor Awareness & Market Risk Education

Additional options

- Entrepreneurship, Startup & MSME Orientation
- Faculty / Trainer Capacity-Building Session
- Custom interdisciplinary masterclass series

Expected outcomes

- Better real-world legal and financial awareness
- Improved understanding of risk, discipline and responsible investing concepts
- Stronger entrepreneurship and MSME orientation
- Enhanced learner confidence in practical decision-making
- Reusable institutional learning pathway for future cohorts

Next step

A short scoping discussion can identify the learner group, preferred format, duration, thematic priority and expected outcomes. A customised programme note can then be finalised for the institution.

GREEN CANDLE BREAKOUT

03 NGOs & Community Platforms

Accessible awareness and capacity-building for communities, youth groups and grassroots programmes.

Collaboration rationale

Community programmes often need information that is practical, trustworthy and easy to understand. Green Candle Breakout can support legal awareness, financial discipline and entrepreneurship orientation in a simplified format that respects local context, literacy levels and programme objectives.

Suggested programmes

- Everyday Legal Rights & Responsibilities
- Digital / Cyber Safety Awareness
- Household Financial Literacy & Budgeting

Additional options

- Fraud / Scam & Risk Awareness
- Micro-enterprise & MSME Orientation
- Youth & Women Entrepreneurship Awareness

Expected outcomes

- Higher awareness of everyday rights and responsibilities
- Improved money habits and scam / risk awareness
- Greater confidence in safe digital and financial behaviour
- Introductory pathway toward self-reliance and micro-enterprise thinking
- Reusable awareness resources for community work

Next step

A short scoping discussion can identify the learner group, preferred format, duration, thematic priority and expected outcomes. A customised programme note can then be finalised for the institution.

04 Corporate CSR & Awareness Programmes

Responsible, structured learning interventions for employees, communities and CSR beneficiaries.

Collaboration rationale

CSR and workplace awareness initiatives benefit from programmes that are practical, well-governed and measurable. Green Candle Breakout can support curated legal literacy, financial literacy, investor awareness and entrepreneurship education while maintaining a clearly educational, non-advisory framework.

Suggested programmes

- Employee Financial Literacy & Risk Awareness
- Cyber / Digital Safety & Legal Awareness
- Consumer & Everyday Legal Literacy

Additional options

- CSR Beneficiary Financial Awareness
- Entrepreneurship / Livelihood Orientation
- Custom awareness campaign / learning series

Expected outcomes

- Improved employee / beneficiary awareness
- Stronger financial discipline and risk understanding
- Better cyber and legal awareness
- Structured entrepreneurship orientation where relevant
- Clearer outcome documentation for programme reporting

Next step

A short scoping discussion can identify the learner group, preferred format, duration, thematic priority and expected outcomes. A customised programme note can then be finalised for the institution.

GREEN CANDLE BREAKOUT

05 Entrepreneurship & MSME Ecosystems

Founder-oriented learning for idea validation, enterprise basics, financial discipline and responsible growth.

Collaboration rationale

Early-stage entrepreneurs need clarity before complexity. The collaboration can help learners move from idea to validation, basic business structure awareness, pricing, financial discipline, risk understanding and responsible growth - while clearly separating education from regulated professional services.

Suggested programmes

- Idea to Validation Bootcamp
- Entrepreneurship & Business Model Basics
- MSME Orientation & Formalisation Awareness

Additional options

- Financial Discipline, Costing & Pricing Basics
- Legal & Contract Awareness for Founders
- Investor Awareness & Risk Thinking for Entrepreneurs

Expected outcomes

- Clearer idea-validation and problem-solution thinking
- Better awareness of MSME / startup formalisation pathways
- Improved costing, pricing and cash-discipline mindset
- Stronger awareness of founder legal / contractual risks
- More structured, responsible approach to enterprise growth

Next step

A short scoping discussion can identify the learner group, preferred format, duration, thematic priority and expected outcomes. A customised programme note can then be finalised for the institution.
