Founder's Message

About the Initiative

Green Candle Breakout is an independent education and knowledge initiative dedicated to building an aware, financially literate, and entrepreneurial society.

Through practical learning, ethical guidance, and action-oriented programmes, the initiative connects law, finance, and entrepreneurship for students, youth, educators, and institutions.

Our purpose is simple: to turn knowledge into confidence, awareness into action, and learning into meaningful social impact.

We believe that when people understand their rights, manage money wisely, and think entrepreneurially, they become stronger individuals and contribute to a stronger nation.

Towards a Stronger Tomorrow — A Closing Note —

Green Candle Breakout stands for knowledge with purpose, awareness with responsibility, and entrepreneurship with vision. As this initiative grows, its commitment remains clear—to create informed individuals, confident learners, and a stronger culture of practical education.

The journey ahead is built on learning, collaboration, and meaningful impact. We welcome institutions, educators, learners, and community partners to grow with us and help shape a more aware, financially disciplined, and entrepreneurial India.

*“ When knowledge becomes action,
society moves forward. ”*
